

# Spider

A division of SafeWorks, LLC

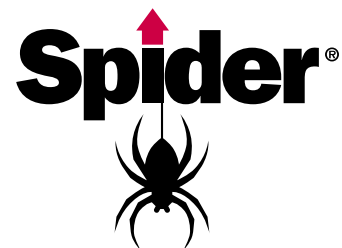

Spider is the world's largest dedicated provider of powered access and safety solutions for a wide variety of construction, restoration, and maintenance industries.

With 25 service centers located in metropolitan areas throughout North America, Spider offers national presence with local service. For global customers, there are also offices in Europe and Asia.

Spider founded the powered access business in 1946, and currently has the largest and most experienced team of engineers in the industry. As the acknowledged industry specialist, Spider offers unparalleled expertise

for any powered access application. You can rely on our experts to thoroughly understand your specific needs, and bring superior service to your project.

In-house engineering and risk management expertise enables us to plan and manage safe and successful completion of customers' projects. Also, Spider places insurance with strong companies. When warranted, we can offer additional insured endorsements and completed operations coverage.

### Temporary Access

As the acknowledged industry specialist, Spider offers unparalleled expertise for any temporary powered access application. You can rely on our experts to thoroughly understand your specific needs, and bring superior service to your project.

### Permanent Access

Spider offers permanently installed access systems for safely maintaining virtually any type of structure—high rise buildings, bridges, water towers, wind turbines, chimneys, dry docks, offshore oil platforms, container cranes, ships, solar turbine generators, silos, dams and power plants.

### Safety Solutions

Spider is equipped with a complete line of safety solutions for fall arrest and confined space applications. Our products have been thoroughly tested and certified to the most rigorous standards issued by OSHA and ANSI.

Another way we are expanding on our commitment to safety is by offering safety training programs. These programs improve worker safety awareness, help control accident-related costs, and assist in maintaining OSHA compliance.

### National Account Programs

Spider has the infrastructure and experience to support customers with multiple locations. Spider offers our multi-location customers a full range of consistent products and services with unmatched quality. Our account representative will meet with you to discuss your needs and objectives for all your locations, and create a customized solution that fits those needs perfectly.
